FORMED CONSPIRACY TO OBSTRUCT LAWS

In Relation to a Certain New York Insurance Company.

Arrests Made in Connection with Conspiracy Charges Growing Out of Recent Life Insurance Elections in the City of New York.

New York, May 2.—George B. Scrugham, manager of the International policy-holders' committee, was arrested in Albany Tuesday night on conspiracy charges growing out of the recent life insurance elections in this city, with Charles F. Carrington and Charles F. Sairrup, the attorneys of the committee, who acted as watchers during the elections and who were arrested on similar charges, Mr. Scrugham will be arraigned before a magistrate and given a hearing.

The arrests have caused a decided sensation, especially in view of the fact that it was at the instance of Mr. Scrugham that the district attorney began an investigation of the methods of proceedure at the life insurance elections.

The charge against the three men is that they unlawfully agreed and conspired together for the perversion and obstruction of the due administration of the laws of the state of New York, especially with relation to "the election of directors of a certain insurance company called the New York Life Insurance company."

George Scrugham is the manager of the international policy-holders' committee, which organized to protect the interests of the policyholders after the insurance scandals, and its membership includes a number of representative men of the country, former members of the cabinet and governors of several states.

Nicholas Longworth, son-in-law of President Roosevelt, is secretary of the committee. Mr. Scrugham, who has railroad interests in Cincinnati, organized a policy-holders' committee in Ohio before he came here and took charge of the work. When Mr. Samuel Unterweyer, counsel for the committee, was in Europe, he had charge of everything here. Mr. Scrugham says that he has received no pay from the committee and that he has been working simply for the benefit of the policy holders. Richard Olney, who was secretary of state in President Cleveland's cabinet, is chairman of the committee. It was Scrugham who complained to the district attorney's office long ago, that forged ballots had been used in electing the administration ticket. While investigating this charge, the representatives of the district attorney's office say that they discovered irregularities in the ballots turned in by the policy-holders' committee.

Another arrest in connection with the elections was that of Jacob Frank, an agent of the New York Life Insurance company. He is charged with the forgery of ballots.

At the district attorney's office it is said that the inquiry has not yet been concluded, and that further developments may be looked for.

Building Mechanics Strike.

Chicago, May 2.—The first strike ushering in May Day in Chicago was called Tuesday in the new plant of the Western Electric company, located at Hawthorne. It was sympathetic in nature. Because of a grievance of the electricians' union against the company several hundred building mechanics laid down their tools and walked out under the orders of the Associated Building Trades. It was declared by officials of the electricians' union that work on the big plant which is one of the most extensive in the country, had been practically stopped at night. I twas estimated that 600 men had quit.

Secretary Taft at His Desk.

Washington, May 2.—Secretary of War Taft returned to Washington on Wednesday, and was at his desk at the war department at the opening of business.

PARIS IS QUIET.

Though Police Are Prepared for Socialistic Demonstration.

Paris, May 2.—Although the entire garrison of Paris were under arms and six hundred mounted republican guards and police reserves were on duty in order to prevent the gigantic May day manifestation planned by the socialists, the city presented almost its normal aspect Wednesday morning.

Troops were massed at the Prince Eugene barracks, the Bank of France, the opera, the Grand Palais, the bourse, the Rue Druot and the other strategic points, but they were discreetly kept out of sight.

The authorities while not interfering with workmen's meetings are resolved to break up the first attempt at street demonstrations which might lead to serious disorders.

It was apparent early in the morning that the mass of the people had not much sympathy with the agitators. The appeals of M. Jaures and other socialist leaders for a complete suspension of work not only in Paris but throughout France, were generally unheeded.

All the stores and restaurants were open, and the omnibuses and horse car lines and electric roads were running as usual. Nevertheless an immense number of idle workmen were in the streets wearing red emblems in their buttonholes.

Before 9 o'clock they began concentrating at the Labor Exchange, near the Place De La Republique, where the most important meetings were scheduled to take place. The police, however, kept the crowds on the move, arresting scores of loiterers. By noon 200 arrests had been made, among those taken into custody being a soldier in citizen's clothes who was selling anarchistic papers.

On many persons arrested the police found knives, brass knucks and revolvers.

FATAL FEUD.

Prominent Texas Attorney Shot and Killed by Physician.

Beaumont, Tex., May 2.—A dispatch from Center, Tex., says:

Carroll B. Short, a prominent attorney of this city, was shot and killed Tuesday night by Dr. Buck Paul, as he stepped from a train. The shooting grew out of a feud of several months' standing.

In December last a brother of Dr. Paul was shot and killed by a negro in the employ of Short and his brother while leading a posse which was attempting to arrest the negro. It was alleged at the time that the killing was instigated by the Shorts as an outgrowth of political matters.

Public feeling ran high, and it was necessary to call out two companies of militia to prevent mob violence.

The negro was tried, convicted and hanged within a space of a few hours.

The shooting last night was a direct result of the former affair, and it is now feared that still further trouble will follow the last tragedy.

Efforts to Avert Coal Famine.

Chicago, May 2.—The traffic and operating departments of the Harriman and the Hill lines have united in a strenuous effort to prevent a recurrence of a coal famine next winter in the west and the northwest. Orders have been issued by the highest officials of the various roads and have the sanction of E. H. Harriman and James J. Hill, requiring all of the officials to make every effort to induce the coal dealers to lay in their winter supply in the summre months.

ENTOMBED MINERS RESCUED AT LAST

Had Been Imprisoned In Mine Nearly a Week.

JOYOUS SCENE AT MINE SHAFT

Foreman Polya, One of the Imprisoned Men, Tells of Their Experiences While Shut Off From the Light of Day in Bowels of Earth.

Johnstown, Pa., May 2.—After being entombed since last Friday, noon, in the Berwind-White company mine, No. 38, at Foustwell, near here, the seven miners who were shut off from the world by a sudden rush of water in the mine, were rescued at 10 o'clock Wednesday night.

The men were greatly exhausted.

Never in the history of the mining region has such a joyous scene been witnessed as when the unfortunate men were reached. Hundreds of people, who gathered about the mouth of the mine watching the work of rescue, cheered, laughed and cried.

Immediately on being brought out, all the men wanted to go to their homes and were taken to the hospital under protest. No food was given to them at first, but a stimulant in the form of brandy and water was administered.

Soon after arriving at the hospital the exhausted men fell into a sound sleep and are only awakened when the nurses administer hot broths and nourishment.

The hospital physicians say that the men would be able to be about in a few days, but would be weak and unable to resume their regular duties for a week or more.

"We knew the men on the outside were at work pumping out the water in an endeavor to release us. We kept a careful watch and could note the water going down inch by inch. There was nothing we could do to help, and we all chafed under this. We could hear the tapping on the pipe and knew it meant for us to keep up our courage," said Foreman Polya. "We always signalled back whenever we heard the tapping. All the men had full dinner buckets when they came into the mine Friday morning, but the food in these was soon exhausted and we felt the pangs of hunger keenly. I don't think the men, after the third day, ever expected to see their families again, but the way they kept up their spirits was admirable."

LANDING DENIED WOMAN.

"Countess Convalensky" Was Dressed in Male Attire.

San Francisco, May 2.—A landing in the country has been denied "Countess Convalensky," the woman who, dresed in male attire, arsived recently with her husband on the Vetura.

The coutess and her husband came here under the names of George and John Pepper. After their arrival, she said that she was a daughter of the Duke of Buckingham, and a cousin of the czar, and that she had been exiled from Russia because of her marriage to the pseudo Pepper, who was much beneath her in social station. She also complained of having been suspected of murder of which she was innocent, and of being exiled on that account.

The stories led to her examination as to her sanity. The physicians who examined her, pronounced her sane.

The woman, who is still on board the Ventura with her husband, will present her case to the department of commerce and labor at Washington.

Verdict of First Degree Murder.

Memphis, Tenn., May 2.—The jury in the, case of Barney Burchett, charged with the murder of Mrs. Mecedes Donovan, on the night of February 9, last, Wednesday brought in a verdict of guilty in the first degree. Mrs. Donovan was killed on a crowded street, having been struck by a man with a guitar. A mob searched the city in an effort to apprehend the murderer. Burchett was later arrested.

IMMIGRATION FOR SOUTH.

Governor Hoke Smith, Jordan and Williamson Arrange for It.

London, May 2.—After a tour of the continent, during which visits were made to Hamburg, Bremen, Vienna and other places, with the object of inducing emigration to Georgia, Governor Hoke Smith and party are making a brief sojourn here.

Governor Smith said that his trip had been successful, and that he had succeeded in removing much prejudice against emigration to the southern states. He said he had been promised that a number of ships would sail direct from European ports to Savannah, and that others would make Savannah a port of call. Some good work had been done in Scotland, whence the stream of emigration to Georgia already had started.

Governor Smith said it was his intention to appoint agents at Hamburg, Bremen, Vienna, Glasgow and other ports to encourage desirable emigrants. The governor and his party will sail for New York Thursday.

NEGRO'S FIENDISH DEED.

Old Couple In Florida Shot to Death In Their Home.

Fernandina, Fla., May 2.—Thomas Johnson and his wife were murdered at Italia, a small settlement near this place Tuesday by a negro.

The first information in reference to the killing was received here by telephone, when a request came from the people of that settlement for bloodhounds, with which to track the murderer.

When the aged couple were shot down at their home there were two little negro children nearby, and they hastened to give the information to the home nearest by. They state that Mr. and Mrs. Johnson were in the house when they were shot down by the negro, and that both of them cried for help.

Observing the two children, the negro loaded his shotgun and gave pursuit. The children state that they outran him and got away.

There is no clew to the murderer.

Dramatic Incident in Court.

Birmingham, Ala., May 2.—A dramatic incident ocurred in the second division of the circuit court Tuesday when Mrs. Ella H. McPheters, plaintiff in a $20,000 damage suit, swooned shortly after leaving the witness stand. After an hour's hard work, she was finally restored, and was carried to her home. While she was unconscious, lawyers for both sides got their heads together, and compromised the suit for $2,600. Mrs. McPheeters was suing the Birmingham Railway Light and Power company for $20,000 for personal injuries.

Large Hailstones Pelt Georgia.

Perry, Ga., May 2.—A very destructive hailstorm passed through Houston county Monday afternoon, striking about 4 miles west of Perry, on the road leading from Perry to Marshallville. The crops and the peaches are about all ruined. So far as known here, the severest of the storm was about one mile wide by two miles long. W. J. Cheek, who is perhaps the worst sufferer, says that he saw many hailstones as large as a guinea egg.

Coldest April in Years.

Washington, D. C., May 2.—According to the weather bureau records, the month just closed was the coldest April in the last twenty-six years, and within a degree of the coldest April ever experienced. The month was characterized by a succession of cold spells, which swept south eastward over the northeast Rocky Mountain slope, and gradually sperad southward and eastward over the entire county east of the Rocky mountains.

BRILLIANT FUNCTION AT THE WHITE HOUSE

Prominent Officers of U. S. and Foreign Legations

GUESTS OF THE PRESIDENT.

More Than Three Hundred Guests, Including Members of the Diplomatic Corps and Prominent Washingtonans Were Present.

Washington, May 2.—One of the most brilliant social functions of the season was given at the white house last evening when the president and Mrs. Roosevelt entertained at dinner all the principal officers of the United States and foreign navies who participated in the ceremonies attending the opening of the Jamestown exposition. The dinner was followed by a reception.

The distinguished visitors arrived in Washington shortly after 6 o'clock on the steamer Newport News, which was delayed several hours.

The foreign officers, who, during their stay in this country are the guests of the United States government were received at the white house at 7:30 o'clock and were presented to the president and Mrs. Roosevelt by Colonel Charles S. Bromwell and Captain McCoy.

At 8 o'clock the guests were ushered into the state dining room.

The table was beautifully decorated with Killarney roses and white lilacs and the gilt plate and candelabra were used. Mrs. Roosevelt was gowned in blue silk, trimmed with painted chiffon and lace. The dinner was followed by a reception at 10 o'clock. The president and Mrs. Roosevelt received at the north door of the blue room. More than three hundred guests, including members of the diplomatic corps, army and navy officers, and persons prominent in Washington official and social life, were present.

The Newport News, which bore the party from Hampton Roads, met with a mishap shortly after entering the mouth of the Potomac river. She ran into the mud and lay stuck there for some hours. There was a dense fog prevailing through that section at the time.

RACE RIOT IN INDIANA.

Assault on Aged Lady by Negro the Cause of Trouble.

Greensburg, Ind., May 2.—The bitter feeling against the negroes as a result of an assault on Mrs. Sefton, an aged white woman, last Saturday night, caused a race riot here Tuesday night.

Six negroes were badly beaten, one of whom may die.

The mob was formed by three white men, and rapidly increased to five hundred. All the saloons and other places frequented by negroes were visited and the furniture and fixtures demolished.

Negroes found in these places were beaten and warned to leave town.

The authorities finally induced the crowd to disperse after promising that all negroes of bad character would be compelled to leave. Many negroes have already departed, and others will be notified by the police to leave. No arrests were made.

Murderer's Whereabouts Kept Secret.

Tangier, May 2.—It is said that the Moorish officers are keeping secret the whereabouts of the murderers of Dr. Mauchamps, the French subject who was killed some weeks ago, being afraid to have the truth as to the cause of the murder known. It is rumored that those persons now accused of having committed the deed are not guilty.

THE SPRING TERM WILL SOON BEGIN

Many Murderers and Other Criminal Offenders Are in Jail.

SHERIFF FENNELL'S WORK

He Has Acted With a Great Deal of Care and Executive Ability, and a Result is the Imprisonment of Greatest Number of Capitol Offenders.

The spring term of the circuit court of the Eight Judicial Circuit will convene in this city on Monday next, May 6, Judge Wills presiding.

This will be one of the most important sessions ever held in Alachua county, as many cases of great gravity have been held over for this term.

Clerk of the Court Wienges states that the docket at the opening of the term will be about one hundred and four cases, of which seventeen are shown as carried over from the last session of the court. Among these there are many charged with criminal offenses, while others are of a civil nature.

Clerk Wienges states that he has a large number of cases to report before the grand jury at the coming session, of which there are six cases to be returned for murder. He has altogether nearly a hundred cases, charged with all sorts of civil and criminal cases.

There are a large number of criminals in jail, some of whom have been held over from the last term of the court. Seventeen prisoners are now in jail, awaiting trial on the criminal docket, which was postponed form the last term of the court.

The session of the court in this county is always lengthy, owing to the fact that the county is a large one, and many criminals are released from the phosphate camps in the West End who are hardened, and who in many instances commit crime and are re-arrested before they have an opportunity to seek refuge outside the county.

Sheriff Fennell has done well, since he has confined six of the seven prisoners who are held for murder. This is a remarkable record and the officer should have the credit for same, through the efforts of his deputies.

Mrs. Becker's Class.

The pupils of Mrs. R. A. Becker gave a musicale at her residence, on North Garden street, on Wednesday evening.

The rooms were beautifully decorated with flowers and a number of colored candles were hung on the wide veranda. Between fifty and sixty pupils and parents were present, and at the close of the program delicious refreshments of cream and cake were served.

Among so many it would be invidious to discriminate; suffice to say the entertainment was high class throughout and gave great pleasure to those who were present. The program was a most delightful one, being composed of numbers both vocal and instrumental, and was thoroughly enjoyed.

Lard has been in existence a long time—so has indigestion

Human nature is hard to solve. People who are most particular about adapting the weight of their wearing apparel to the season and its conditions, who never think of going out in a storm without an umbrella and rubbers, who would not sit in a draft for a farm, will calmly sit at the table and stuff themselves with lard-soaked food and not realize for an instant that it is likely to give them a full-fledged case of indigestion and clog their whole inner machinery.

Lard is produced from hog-fats, sometimes impure, always indigestible, and there's a good day coming when no one will think of using it for cooking. *Cottolene* is the only rational frying and shortening medium in the world. It is made from refined vegetable oil and choice beef suet—everything about it is digestible and conducive to health.

It is a product of Nature.

It will make pure, palatable, healthful food, and food which anyone can eat and enjoy without the after-pangs of a disordered stomach.

Every good grocer sells *Cottolene*.

It comes only in sealed white pails with a red label and band. In the center of the label is our trade mark—a steer's head in cotton plant wreath.

Try *Cottolene* once and you'll nevermore be a friend to lard.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

WORK PROGRESSING NICELY

Sewer Mains are Being Laid Among the Principal Streets of City.

The contractor for the sewer work, F. H. Beeman, is making fine progress, considering the fact that he has been so long delayed in the matter of shipments from Chattanooga and Macon, where he has been ordering his material.

For a long time Contractor Beeman was hampered by the failure of the material to arrive, but the cars are coming with more regularity now, and he expects to complete the work with all haste possible consistent with good work.

In the Mayor's Court.

There were two offenders in the mayor's court Thursday morning, being Edward Turner and John Montgomery, colored, who were both charged with disorderly conduct.

It appeared from the evidence that both defendants were carriage drivers, or hackmen, and that there was an unpleasantness between them which resulted in a quarrel, when both were arrested. They were fined $1 and costs each.

Vitrified Brick Walk.

Material is being placed on the ground for the construction of a vitrified brick sidewalk on the north side of West Church street, between Garden and Pleasant, the property being owned by J. R. Eddins. Mr. Eddins appears to be a firm advocate of vitrified brick, which he believes will outlast by many years any other material.

MARSHAL ARNOW REPORTS.

The New Marshal Will Make Good Showing for First Month in Office.

At the regular monthly meeting of the new City Council on next Monday night, which will be the first regular meeting since the Council was organized, Marshal Arnow will present a good report, which will indicate that he has been very busy for the period he has been engaged.

It was once said that Marshal Arnow, if elected, would protect the interest of the owners of cattle in the corporate limits, and would not arrest the cows on the outskirts of the city—or, to be plain, the cows which nad been accustomed to grazing within a short distance of the line; but this statement seems to be unauthorized, for that official "takes in" everything within the city limits, with the result that thirty-eight cattle have been impounded since he was sworn into office April 12—eighteen days.

Marshal Arnow will show a report from April 12, when he assumed office, to May 1, which gives thirty arrests, $153.75, and thirty-eight cattle impounded, $19, making a total of $172.75 for the portion of the month of April, eighteen days, which is one of the best ever shown in Gainesville.

A SPRING MEDICINE.

With the advent of spring many people feel the need of a tonic of some sort, and there are not a few favorite spring tonic formulas treasured almost as heirlooms in old families. Some of these have real merit and should be made public for the public good, but their holders are in most cases loath to give them wide publicity. A thoughtful scientific prescription that is found to do the work required of a spring medicine and to do it quickly and agreeably is composed of ¼ oz. Fluid Extract of Buchu, 1 oz. Bulso Mixture, ¼ oz. Fluid Extract Gentian Compound and 15 ozs. water. The proper dose is a tablespoonful taken three times a day, before meals. Any good pharmacy will put up this prescription at small expense.

Strike Ties Up Ice Business.

Columbus, O., May 2.—One hundred drivers and helpers of ice wagons in this city struck Tuesday and declare that they will remain out until their demand for shorter hours and more wages are complied with. The strike has tied up the ice business thoroughly, and no ice was delivered to any portion of the city except in a few exceptional cases. The ice contractors declare that the men struck because they objected to a clause in the contract providing that all drivers and helpers who get drunk or are dishonest while on duty shall be discharged from the union.

WOMEN PAY MORE.

Why Insurance Companies Discriminate Against the Gentle Sex.

Medical examiners of insurance companies say that the reason a woman pays more for the privilege of insurance than a man, is from the fact that women more readily fall victims to indigestion and stomach troubles and the fatal ailments that spring from these causes.

All persons, they say, who have a weakened digestive system and suffer from sick headache, dizzy spells, distress after eating, specks before the eyes, bloating, nervousess, sleeplessness, and the many other symptoms of indigestion, soon lower the tone of the whole system and are most susceptible to a fatal illness.

For curative power in all stomach troubles, nothing else is as safe yet effective, nothing else can be thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na. It is unlike any remedy heretofore known and is really one of the valuable discoveries in modern science.

It is not the acute attacks that influence the insurance examiners alone, but the constant feelings of weakness, headaches, indigestion and stomach troubles—these things, physicians say, kill more people than many more serious diseases.

To escape this condition of ill health, to enjoy one's food and yet never suffer with indigestion, a person should use Mi-o-na stomach tablets. They are not a mere digestive tablet, but strengthen and restore to natural action the stomach and bowels and effect a complete cure in even the worst form of stomach troubles.

J. W. McCollum sells Mi-o-na in 50-cent boxes under a guarantee to refund the money unless it does all that is claimed for it.

Inmates Warned Just in Time.

Sandusky, O., May 2.—A policeman early Wednesday discovered fire raging in the three story Bender building, the upper floors of which were occupied by several families. The alarm was given just in time to save the sleeping inmates. A woman and several children were overcome by smoke and had to be carried out of the building. The building was gutted by the fire. The ground floor was occupied by M. J. Bender & Co., wholesale grocers. Their loss is heavy.

TIRED AND SICK YET MUST WORK

MRS. AUG. LYON

"Man may work from sun to sun but woman's work is never done."

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism ina strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

Nasworthy, and fatally wounded the dead man's young brother, all of the same community. The men were brothers-in-law, and it is said that the terrible affair was caused by a quarrel over a lot of timber. Both young men lived in Cordele last year, and the sad news was a sensation to their friends here.

SKIN TORTURES AFFLICT CHILDREN

Obstinate Case of Eczema Covered Little Girl's Limbs with Running Sores—Poison Oak Made Boy's Hands and Arms a Mass of Torturing Sores—Sufferers Soon Relieved and Completely Cured—Grateful Mother Says:

"CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble.

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointing them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up. So we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby, living as we do twelve miles from a doctor. Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

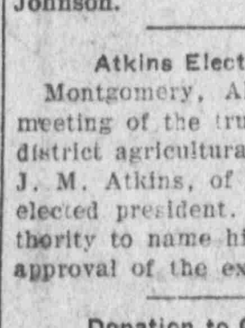
SHORT TALKS BY L. T. COOPER.

CHRONIC CRANKS.

We all have met people who are continually kicking. Life seems a terrible thing to them. They seldom smile. Something dreadful is going to happen, nothing is ever just right, and they worry and fret and complain from morning till night.



MR. J. R. SMOCK.

Their trouble seems to be just a bad disposition but this is seldom so. In most cases there is one of two things the matter with them; either their nerves or their digestion is responsible. Both come from the same thing—stomach trouble. A man or woman whose nerves are tied in knots is bound to be mighty poor company. The same thing is true if what they eat don't digest properly. No wonder they grumble, I don't blame them.

I have seen Cooper's New Discovery change the whole disposition of people in a month's time simply by getting their stomach in shape again. Even the expression on their faces was altogether different. The worried, tired, fretful look changed to a peaceful happy expression, and the lines of care disappeared altogether. Many people tell me about this in letters. They seem to think it a miracle. It is'at. It's just the stomach working again.

Here's a case of this kind:

"I suffered with my stomach for thirteen years. Nothing I ate seemed to digest. I also had chronic constipation, and was tired, dull, irritable and despondent all the time. I found it difficult to attend to my duties as traction agent at this place."

"Six different doctors treated me and all gave different opinions."

"I began taking Cooper's New Discovery, and to my surprise it helped me from the first. I have gained ten pounds in three weeks and am feeling fine. My work now is a pleasure, where before it was drudgery." J. R. Smock, Cicero, Indiana.

We sell the Cooper medicines.

CRIPPLED HANDS AND FEET

Marvellous Cure of Rheumatism by

MINARD'S KING OF PAIN LINIMENT

"Four years ago I was taken with rheumatism. I lost the use of my hands and had to go to the hospital, but did not get any relief. I also had it in my limbs and body and could not walk for six months. I was a patient in the Homeopathic Hospital, the Emergency Hospital, and the New England Hospital, and did not get any relief from any of them. I also went to the Fourth Grade Hospital in New York. Some of Boston's best physicians attended me and still I found no relief. For three years I could not do any work at all, but for the last year, since using Minard's Liniment, I am able to do all my housework. I think that I know the worth of Minard's Liniment better than any person who has ever suffered with rheumatism. Hundreds of people who know of my suffering give Minard's Liniment the praise. I wish that every one knew the worth of this Liniment as I do. Yours truly, Mrs. Emma B. Williams, 62 Sawyer St., Boston."

KILLS HUSBAND, SON AND SELF

Insane Woman Commits Very Ghastly Tragedy in Rhode Island.

Providence, R. I., May 1.—Her mind unbalanced, it is believed because of long-continued nervous trouble, Mrs. Louisa Holden, forty years of age, shot and almost instantly killed her husband, Lee S. Holden, then turned the revolver on her son, Louis A. Williams, 15 years old, shooting him in the head, inflicting a fatal wound. She then shot herself in the head, dying at the Rhode Island hospital.

The tragedy occurred at the home of the Holden's. The husband was a member of the firm of Smith & Holden, dealers in oils and paints. The couple had been married about five years, Mrs. Holden being divorced from her first husband. During the evening the family spent several hours together playing cards, all apparently in the best of spirits.

HOME PROSPERITY.

Much has been said about buying from mail-order houses in Chicago and elsewhere. The press generally has advocated buying at home. This is right and proper for all who have the welfare of their community at heart.

The local merchant pays his taxes into the county treasury, while not a cent of the mail-order house money goes into any fund from which you may derive any benefit.

These mail-order concerns cut a big splurge with their thousand-page catalogues, and in many instances claim that they sell direct from the manufacturer to consumer—making many of these shipments from their own factories. As a matter of fact, we very much doubt whether there is one of them that owns the half of what they claim, and to this extent it is nothing but a plain case of humbugging the people.

The price of any article with freight charges added is in a majority of cases equal to, if not more than, if bought at home. Had the buyer gone to his local merchant, he would have obtained what we wanted and had the satisfaction of patronizing home industry and held a warm friend instead of retaining a doubtful one.

By buying of the home dealer you are increasing the prosperity of the community in general, as all are benefited. The dealer does a better business, is in a position to buy his stock at lower prices and to sell cheaper to you. He advertises more extensively in the local papers and places the paper in a position to give you better service.

It is true that merchants do not always treat their farm customers right. They sometimes try to beat down prices on farm produce by buying from outside shippers the things that can just as well be produced at home, and it is no worse for the farmer to send off after goods than it is for the merchant to do it. The merchant in the country should realize that his prosperity depends upon the property of the farmer, and both should realize that whatever they pay out for freight is a loss to home manufacturers.

In fact, all classes of people in every community should realize that it is better to co-operate together than to fight each other. The producer of wealth in all lines is the man who must prosper primarily before anybody else can prosper. Then the less we pay for the expense of exchange the more there is for the producers.

Increased wealth means greater revenue from taxes and the burden thereof lightened. Increased revenue brings much needed improvements, good roads and bridges, and better educational facilities. These things are the demands of the day, and whoever buys from mail-order houses is a block to the wheels of home improvements.

Congressman Clark thought so much of the address delivered by Dr. H. F. Moore, oyster culture expert from the Bureau of Fisheries, delivered before the Florida Legislature, that he has generously donated a copy of the same to The Times-Union, which appeared in that excellent paper of the 1st inst. Dr. Moore is correct when he says that the fishing industry is one of Florida's greatest, and suggests that more care be taken and more study be given to this industry. The amount received through this industry alone each year is astounding, and the same should be encouraged and increased as much as possible, for the market is inexhaustible.

Warnings are being sent out from the Treasury Department as to new counterfeits that are appearing, and one of the latest is in regard to a $10 bill on the Troy National Bank, a counterfeit done apparently by a new photo-engraving process and made up on two thin sheets of paper with the silk threads that distinguish the real Government bill carefully sandwiched in between them. It is said to be a very clever piece of work, and to mark a decided step forward in the line of criminal art. The department is having a good deal of trouble now with counterfeit coins of genuine silver. Of course during the time when silver was at the lowest market price, there was a good profit in buying the metal in bulk and working it up into silver coins of all sorts. Some of these are excellent pieces of work, and as there was nothing but pure silver in them they were rather hard to tell from the genuine. The principal work now, however, seems to be recoining Mexican and South American silver currency with the American impression on them. This is a labor saving device in a way because the silver is already shaped and even milled, and all that is necessary to do is to stamp it. A curious fact has developed, however, in the study of these counterfeits, and that is that it is almost impossible to obliterate to original impression. It may be struck out with the fresh dies so that it is gone to all appearances. But if the coin is "pickled" in a mild acid solution for 48 hours, the original impression will come out again, very faintly it is true but so that it may be read with the glass. It is a continual race between the Treasury and the counterfeiters as to which shall circumvent the other. But so far the Secret Service has managed to keep ahead of the game, and as soon as a new trick is invented by the criminals, the Government experts find a new one in the proctective line that will cap it.

Editor Frank Harris is making a fine paper out of The Ocala Banner—or, to put it more plainly, he is keeping up to the standard of excellency. The Banner should shine in the home of every progressive man in old Marion.

SPECIAL OCCASION.

Southern Baptist Convention and Auxiliary Societies, Richmond, Va., May 16-21, 1907.

On account of the above occasion we announce round-trip rate of one fare, plus twenty-five cents in the sale of tickets to Richmond, Va., tickets at this rate being on sale from May 13th until 16th inclusive, with final limit to leave Richmond fifteen days from date of sale. However, by complying with certain conditions and upon payment of fee of $1.00, an extension of this limit to June 17th may be procured.

The Seaboard has been declared the Official Route for delegates to this meeting. Those having the matter in hand were evidently guided in reaching the decision to name the line by some of the attractive features of the service, noticeable among these being the double daily service with through coaches and sleeping cars and then the following: Our people, with an idea of affording delegates to this and other conventions held in Richmond, an opportunity for visiting the Jamestown Exposition, perfected an arrangement whereby the return portion of tickets reading from Richmond are honored from Portsmouth, Virginia, without additional charge. This alone certainly makes the Seaboard especially attractive.

There is a movement now on foot to have the Florida Baptists assemble in Jacksonville, moving from there on the same train—one might say in a body. This, too, will make the trip more pleasant.

TO MAKE OFFICIAL TEST.

Wright Bros. Claimed To Have Solved Problem of Aerial Flight.

New York, May 2.—According to the Times, an official test of the machine of Wright brothers, machinery manufacturers who have professed for the last two years to have solved the problem of aerial flight, will be made within a few weeks in Germany. The Wright Bros., who have recently been experimenting with their new machine at Kitty Hawk, N. C., will sail for Germany some time this month.

The test, it is claimed, will be conducted under the auspices of the recently formed German aerial navigation society, which was organized early this year through the personal influence of the emperor of Germany. Its purpose is to reimburse inventors who give satisfactory proof of having attained a reasonable amount of practical building of aerial machines.

ATTACKED WITH KNIVES.

Man Murdered and Wife Is Severely Wounded at Chicago.

Chicago, May 2.—Crashing through an outer door with an ax, three men attacked John Morris and his wife with knives in their home. They left Morris dead and his wife severely wounded.

The motive for the murder is believed by the police to have been revenge for an affront placed on the men by Morris, their former friend, in ordering them from his home one night last week. It was accomplished after the couple had barricaded the door against them with every movable piece of furniture at hand.

Five men were arrested. They are said to be members of the "Sholfo" gang. They are Michael O'Sheay, Jerry Sullivan and William Sheehan, who have been identified by Mrs. Morris, and George Reed and James Hansen, friends of the others, who are held pending a coroner's inquest.

Boy Has Very Narrow Escape.

Columbus, Ga., May 2.—Tom Gordon, the 12-year-old son of Mrs. Georgia Gordon, a widow, had a narrow escape from death on First avenue. While trying to ride a wheel he darted under a horse, being driven by Mrs. J. J. Wood, and the animal and vehicle both went over him, with the result that one of his legs was fractured in three places and he was otherwise seriously injured.

SOMETHING YOU SHOULD KNOW

We want the people of Gainesville and vicinity to know that the most valuable and delicious cod liver preparation known to medicine is Vinol.

Vinol contains all the medicinal elements of cod liver oil actually taken from fresh cods' livers, but not a drop of the useless, greasy oil to upset the stomach and retard its work, and to this is added peptonate of iron (tonic iron.)

For this reason Vinol is recognized throughout the world as the greatest health restorer and strength creator known to medicine, and we do not believe there is a man, woman or child in Gainesville but what Vinol will benefit them at this season of the year.

Vinol creates health and strength for old people, weak, sickly women and children, nursing mothers, and after a severe sickness.

Vinol cures hacking coughs, chronic colds, bronchitis, and all throat and lung troubles.

Try Vinol on our offer to return money if it fails.—W. M. Johnson, Druggist.

Note—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.
